

# Position: Audio Engineer

## **General Description:**

North Heights Lutheran Church is looking to hire a talented individual to help with our live sound for all of our live productions across two campuses. This individual will have ample opportunities to work with a variety of events including worship services, album release shows, corporate events and much more.

Hours vary Monday–Friday, nights and weekends. Very flexible hours.

## **Major Duties:**

- Work with the Worship Pastors and Lead Tech Engineer to use sound in a way that will enhance the weekend experience both in the room and online.
- Work with outside events renting venues to enhance the shows they bring in.
- Make suggestions, improvements and maintain existing audio systems.

## **Minor Duties:**

- Train volunteers on the use of audio equipment.
- Aid in day-to-day ministry needs.

## **Qualifications:**

- A good understanding of live sound reinforcement.
- Use of multiple audio consoles but primarily the CL5.
- Understanding of audio distribution.
- High troubleshooting skills.
- Build and maintain a good relationship with musicians and pastoral staff.
