It was about _____.

I would/would not recommend it to others.

Date of completion: _____ Parent initials: _____

Complete 10 hours of IXL Math (that's just one hour a week for 10 weeks!).

- **Select grade level appropriate activities. (Feel free to challenge yourself by trying 6th grade work!)**
- **Please use some of the time on multiplication and division practice.**

The time and content you practice will be reported to us automatically by IXL.

Return this form to us at our Back-to-School event in August. If you successfully complete the challenge you will receive a VALUABLE GIFT CARD. In addition, an all-school drawing will be held to award one \$500 Amazon Gift Card to an NHCA student who completes the Summer Challenge. WOW!! That's a big prize!
