

A Summer Challenge has been presented to the students of NHCA by the teachers and the PTF Board!

In order to prevent “Summer Learning Loss,” students are encouraged to read and practice math throughout the summer. The teachers from first grade through seventh grade have prepared specific expectations for their students.

The prizes for meeting the challenge are spectacular!! When the students return their completed forms at our August Back-to-School event, they will receive a gift card of their choice. In addition, a grand prize drawing will be held to award one qualifying student a \$500 Amazon gift card. WOW!!

Here are the links to the specific grade level challenges:
